

[WHAT IS INTERCARGO AND HOW IT IS BENEFICIAL FOR SHIP-OWNERS](#)

INTERCARGO is the short name for the International Association of Dry Cargo Ship-owners.

Since 1980, it has represented the interests of owners, operators and managers of dry cargo shipping and works closely with the other international associations to promote a safe, high quality, efficient and profitable industry.

Membership benefits include the provision of information on technical, commercial and operational issues relating to the dry cargo industry, an active Committee structure, and participation in the work of the International Maritime Organization (IMO) where we enjoy observer status.

INTERCARGO believes that a new approach is needed to maintain a safe, efficient, environmentally friendly and profitable dry cargo shipping industry.

INTERCARGO appreciates the role played by its growing number of Associate Members - companies or organizations providing goods and services to the dry cargo industry. Details of these companies are contained in the list of members.

Dry bulk trades comprise iron ore, coal, grain, timber, steel and other similar cargoes which are shipped in bulk as opposed to carried in containers or other unit loads. Delivering approximately 5 million tons of these commodities every day requires an efficient dry cargo shipping industry - without which, world trade as we know it would cease.

[INTERCARGO AND INDUSTRY POLICIES](#)

INTERCARGO'S policies are encapsulated in our [Vision and Mission](#) and [Direction Paper](#) statements. Please give us feedback on these issues. To avoid duplication of effort and to target resources more effectively, INTERCARGO strongly supports the work of the Shipping Association Round Table. The three other organizations represented in this body are:

- [The International Chamber of Shipping \(ICS\)](#) whose membership comprises the shipowners' associations from over 40 countries;
- [The International Shipping Federation \(ISF\)](#) - the International Shipping Federation, whose secretariat is provided by [ICS](#), is the international employers association for shipping companies;
- [BIMCO](#): whose membership comprises owners, brokers, ships agents and other operators; and
- [INTERTANKO](#) the association for independent tanker owners. Intercargo and Intertanko have formed a single secretariat structure within the same office which will result in improved representation for members in both the wet and dry bulk sectors

[Vision and Mission](#)

INTERCARGO is the sole international ship-owners' association wholly dedicated to the needs of the dry cargo industry. Providing leadership and authority, it is a forum for the shipping community to discuss issues of mutual interest and act as a platform for the proper development of the dry cargo sector.

INTERCARGO's vision is for a safe, efficient and environmentally friendly dry cargo maritime transport industry where its members' ships serve world trade operating competitively, safely and profitably.

INTERCARGO is committed to strengthening the position of dry cargo owners and managers world-wide both in the market place and regulatory fora. The industry should also provide a healthy and rewarding environment for the human resources engaged in its activities.

INTERCARGO will work jointly with other bodies to ensure a healthy industry.
